

TUCKERBILT

Product Spotlight: 40° - 20kip Pivoting Panel Haul Racks

Hauling Rack with Optional Extension

Extension Supports the Top of Window Blockout

Heavy Architectural Panels Haul with Ease

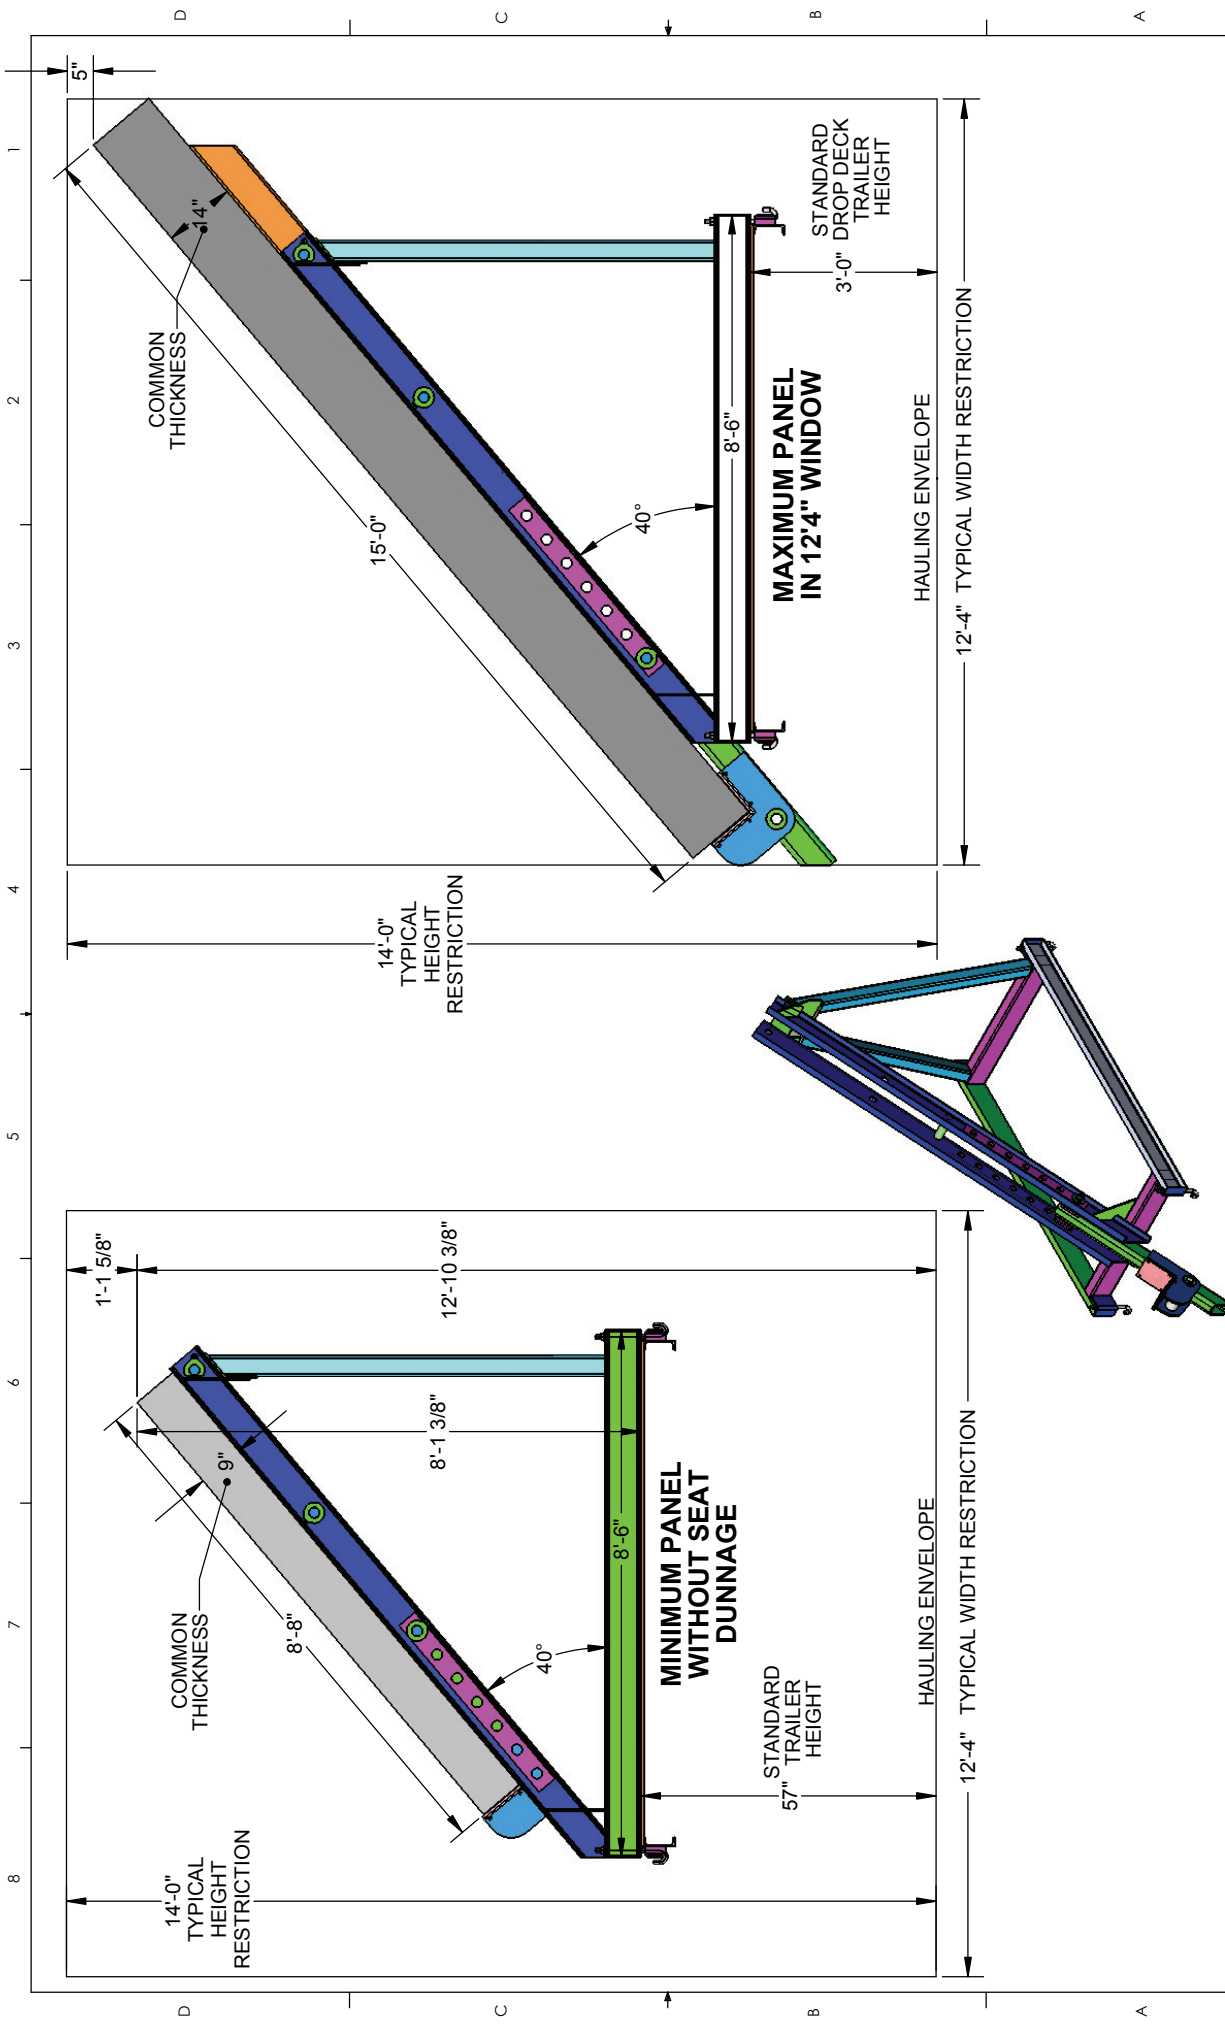

Legs Adjust to Accommodate Various Panel Widths

- Our standard model adjusts to accommodate panels from 8'8" to 15' in a standard hauling envelope of 12'4" wide x 14' tall. Dunnage on the pivoting seat allows for hauling narrower panels at 40° to resist cracking.
- Seat pivots to eliminate spalling on the edge of the panel.
- All of our hauling racks are engineered to meet the US DOT Cargo Securement Rules and Restrictions.

*** As with all of our products, each order can be custom designed and engineered to your exact specifications ***
